EV5

Apartment Station with Soft-Touch Buttons

Overview

The EV5 apartment station enables an occupant to answer visitor calls from the communal entrance with a two-way simultaneous video conversation. The occupant can then open the door to the visitor directly from the apartment station.

Constructed from hard wearing HIPS plastic in a sleek and modern design. The HIPS plastic has a high impact resistance and toughness, is mark resistant and finished in matte white. They are a 'surface mount' design for easy installation.

The 5" colour display has a resolution of 480 x 272 pixels and is equipped with On Screen Display (OSD). The end-user can easily adjust the image brightness, contrast and colour using the soft touch buttons.

- 5" color display with OSD
- Handset with magnetic hang-up
- Discreet LED Indicators
- 8 capacitive 'Soft-touch' buttons including door unlock, privacy, concierge call back, ring tone volume settings (low/medium/maximum) and controls for the OSD.
- 10 Selectable ringtones.
- Mute call tone when on privacy, with LED alert
- UX2 for auxiliary functions and call to the porter
